PERSIA'S NEW PREMIER HAS BIG JOB PACIFYING FOREIGN OIL-ROBBER

Reza Kaha, the new premier of Persia, has the difficult situation of appeasing Imperial America, the murder of the vice-consul. Persia is now of those unhappy nations that 'the lion and the elephant' cannot leave alone. England and Standard Oil try to upset. The Persians work here, however, are sympathetic to Soviet Russia and are hostile to the foreign influences which rear their young into adult themselves.

WARSHIP TO FOLLOW INSULT NOTE TO OUR COUNTRY WHERE AMERICAN STOOLPIGEON DIED

(Special to The Daily Worker) TEHRAN, Persia, July 28.—United States Minister Joseph Kornblith today handed the Persian government an insolent note threatening the withdrawal of American diplomatic representatives and the severance of all diplomatic relations. The American state department note is one of the most blunt and insulting statements exchanged in diplomatic negotiations for a long time.

The principal demands made by Minister Kornblith are: 1. Full reparation must be rendered instantly for the death of Major Robert Imbrie, the United States Vice-Consul at Teheran. 2. The Persian government must forthwith apprehend and punish the persons directly or indirectly implicated in the tragedy involving Major Imbrie and his companion Melvin Seymour. 3. All officials and servants of the government who were present when the attack was being made and who failed to prevent it are to be punished immediately. 4. In addition to its readiness to punish the guilty and to pay a financial indemnity, the Persian government is called upon to remunerate for the expenses of a warship to bring the body of the Consul home, and also for a guard of honor to be furnished by the Persian government for the funeral of the Consul home, and also for a guard of honor to be furnished by the Persian government for the funeral of the Consul home...

ILLINOIS C. P. A. FAVORS BUSINESS BUT NOT WORKERS

Neglect Negroes; Fail to Nominate Governor

By KARL REEVE.

Although the business and professional classes seemed to be the only group entirely satisfied with the platform adopted by the convention of the Illinois Conference for Progressive Political Action, all present were agreed in favor of "representative democracy" and against the dictatorship of the proletariat.

"An appeal will be made," says Garvey, "to the presidents of America, France and Portugal for a square deal for the Negroes in Africa, America and the colonies."

There was a brief outburst of rebellion when the resolution denouncing the mobilization drive was omitted. Chairman Charles McGowan explained that the resolution was omitted by error, and it was incorporated in the resolutions.

The Negroes got their just share in the largest mass movement mentioned being made of the race program in any part of the convention's resolutions. A motion picture of the women's section was finally defeated.

McGowan squelched another threat by the largest mass movement of the Organization reported that nomination of state candidates would be turned down in the largest mass movement of the day in steam-rolling this party.

Len Small's name was not mentioned on the floor of the convention. Many of the delegates, "If we nominated a candidate for governor, McGowan was heard to say, 'at least four of the most influential groups would withdraw from the conference'."

Many of the delegates objected to the name of the delegate from Galena declaring that they had already voted for the name of Len Small and LaFollette.

For Small and LaFollette. This was the closest McGowan came to mentioning that the convention did not dare to run a LaFollette candidate for governor for fear the Federation might endorse Len Small without withdrawing support.

Henry Sherwin, the lone Negro present, was finally granted credentials as an individual, although originally placed in the colored group. Sherwin in 1920 was a candidate for alderman of the Third Ward on the Farmer-Labor ticket.

WOLKNER he didn't hope for LaFollette to do much for his race. As far as he knew, said Sherwin, "LaFollette has never taken a definite stand on the Negro problem. In 1920, when the Farmer-Labor convention was after LaFollette's support, LaFollette said word that there were two planks in the Farmer-Labor platform he objected to. One was the declaration against large monopolies, the other was the anti-discrimination against the Negro plank. LaFollette has changed his stand on the business issue, but is afraid of losing the Southern white vote and takes no stand on the Negro question. He does not wish to hurt the enemy of the Ku Klux Klan."

Don't Recognize Negro. When asked whether there was any declaration in the platform on the Negro question, Dennis McCarthy, vice secretary of the Conference for Progressive Political Action, asked: "What Negro problem? Is there a Negro problem? We don't recognize any necessity for a Negro problem."

After further questioning, McCarthy said that F. F. F. did not recognize the necessity for discrimination against the Negro. "The only state that in your platform," he was asked, "No," McCarthy replied indignantly.

Biggest Negro Organization to Meet on Friday

(Continued from page 1) "Discussion of the Negroes' attitude in the next great war."

"An appeal will be made," says Garvey, "to the presidents of America, France and Portugal for a square deal for the Negroes in Africa, America and the colonies."

Oliver Black Man His Own. In issuing the call for the convention, Garvey declared: "Let England peacefully give up to the black man what is his. We ask France to give up peacefully to the black man the things that are his. We ask America to treat us decently until we have a home."

He said that his organization declares for an independent Negro nation, has succeeded in handling about half a million Negroes together in the largest mass movement of American Negroes have ever had. The Universal Negro Improvement Association must therefore be reckoned with as a force in the problems which confront the Negro as a part of American society.

Meet in Chicago Tonight. Preparatory to the international convention, a mass meeting of the Chicago section of the Universal Negro Improvement Association will be addressed by its local leaders, is announced for tonight at Coleman School, South Dearborn and 7th sts. W. A. Wallace, B. W. Wheat and Dr. Jay Peters, prominent Negro leaders, will be the principal speakers.

Balloon Races Safe. LYONS, France, July 28.—Only two aeronauts, Pilot Lefebvre and Pilot Heuter, both French, of the sixteen nations who started Sunday in the international balloon race for the French Grand Prix, had not reported tonight.

AS WE SEE IT By T. J. O'FLAHERTY.

(Continued from page 1) So long as somebody else pays, and unless peace can be had peacefully, it must be had even if the Socialist pacifist MacDonald must mobilize his Majesty's navy. Forty miles from the front. And only one of them participated in the 1914 Spitzhead review.

President Charles Mitchell of the National Bank of New York will be pleased with the labor banks. Mitchell is one of the big fellows in the financial game. He knows what he is talking about when he wrote in the second issue of the Labor Banker, published by the Brotherhood Investment Company and affiliated financial institutions of the Brotherhood of Locomotive Engineers that labor banks "are a good thing for the whole banking business."

The banks, he went on to say, eliminate prejudice, increase thrift and eradicate the sharp drawn between owners and workers. There you have it. The B. of L. E. has now, besides the investment company and the Empire company, eight banks and two in the process of formation. This is some labor union! Watch the workers getting emancipated—in the neck!

A little gem from the Typographical Journal, official paper of the Typographical Union, supposed to be a little bit progressive if not more so. A gentleman from Alexandria, Va., who edits a paper in that city, joined the local type union. What he saw pleased him immensely and he offered to express his pleasure and perhaps to join some subscribers he gave vent to the feelings which him in the columns of his paper. It was so good that the official paper of the type union ran it. After faithfully praising the members of the local lodge for their piety and their knowledge of parliamentary law, the local editor called attention to the beautiful bronze tablet "commemorating the heroes of the union who had died for their country on a foreign soil" wrote Moran and the Allied Conference. His Majesty's navy and other heroes, and the Allied Conference, keep the capitalist pigs from cutting each other's throats by the workers' cut up his neck with the following: "We let the meeting feeling that as long as the American Federation of Labor trains and educates such a membership this industry is safe from the inroads of the Reds."

The Allied Conference is held up because France is playing the trump hand of airplanes and hundreds of thousands of soldiers. Now watch the other fellow move. Against France's airplanes Charlie Hughes can bring up the French debt to Uncle Sam, and the Socialist pacifist premier, Ramsay MacDonald, called a great naval review at Spitzhead, the first since His Majesty's navy was exhibited there in all its glory in 1914, immediately prior to the great World War. Every peace conference is a prelude to a Statesman's act with guns, air planes, ships, poison gas and other lethal weapons as well as with polished phrases. Herriot set a good look at His Majesty's navy. He could report back to the French bankers that the British Socialists were as willing to fight for the rights of Threshedore street as Charlie Hughes and Coolidge were for the rights of Wall Street.

European Socialists and European labor fakery are acting as the lackey of the money barons. Ramsay MacDonald is the European white hope of the capitalists. With the aid of Ramsay and his crew of trained Socialist lackeys the bankers may be able to stabilize Europe. Keep the capitalist pigs from cutting each other's throats by the workers' cut up his neck with the following: "We let the meeting feeling that as long as the American Federation of Labor trains and educates such a membership this industry is safe from the inroads of the Reds."

NEW HAVEN, Conn., July 28.—A tremendous anti-capitalist war mass meeting will be held here Wednesday evening, July 30th, at 8 p. m., around the Central Green bandstand. Benjamin Glilow, Workers Party candidate for vice-president, will be the chief speaker. William Simon, Workers Party organizer of this district, will also speak against the war of imperial capital. R. S. King will be chairman.

This meeting is part of the worldwide protest of all Communists and sympathetic workers against the war which the international capitalists are brewing for their profit. The workers fight the wars for their masters—"peace" time on the field of industry, in "war" time on the muddy, bloody battlefield.

The Filipino Court Martial

Five hundred Filipino scouts stationed at Ft. McKinley are to be court-martialed because they dared to get together to make more effective their demands for equal pay with white soldiers and for better conditions.

But why is the blood and thunder regime of that madman, General Wood, resorting to such brutal acts in times of peace? Who is now striking terror in the hearts of our imperialist clique?

The cause for this extreme harassment has its roots in the intense, widespread discontent that is gripping the Philippine Islands. The Archipelago is simply sick and tired of the unwelcome and uninvited blessings of the American administration. The national leaders are having their hands full to hold back the masses from declaration of this national liberation.

What Militia Is For

Capitalism continues its rule by fooling the workers. While the State, the courts, the church, the army, the police, etc., are quite definitely instruments for crushing and enslaving the workers, they are continually camouflaged to the simple-minded as impartial instruments of "justice," for the protection of the weak and defenseless, and nauseum. It is therefore valuable for us to note that, for corroboration of the Communist explanation of the State power, the words of General Foreman of the Illinois National Guard, in a letter to the officers of a coal corporation:

Negroes Are Workers

If the discussions now going on in the ranks of the Negroes, centering largely around the organization and personality of Marcus Garvey, finally lead to the discovery that the Negroes are, in vast majority, working men, then Garvey will not have lived in vain.

Bankers and Business Men Dominated the C. P. P. A. Meeting

Bankers and business men dominated the C. P. P. A. meeting called to organize Illinois, just as they dominated the national LaFollette movement.

Class Candidates and the Farmer-Labor Party

By JAMES P. GANNON, Assistant Executive Secretary, Workers Party.

Why should our comrades be surprised or shocked if the Communist Party decides to take part in elections under its own name? This is the natural thing to do, and it being done by Communist parties in all parts of the world...

Some questions, however, are arising from the section on the election of our party, which we have abandoned for the United Front. They consider that our action represents the interests of the working class.

We have said a thousand times, and we repeat it here, that our labor party is based on the united front tactics laid down by the Communist International.

The conclusion we finally arrived to go together with them in a common fight wherever it is possible to make a substantial showing.

Clara Zetkin's Cry for Peace

CLARA ZETKIN's militant call to the Social-Democrats to resist the imperialist war stands out in brilliant contrast to those of the leaders of the Party majority.

... The political ends of German imperialism and the strategic rule of its militarism cannot away our actions as international Socialists.

... So let us make an immediate and a forceful move for peace on behalf of the German social-democracy, of the German workers, for the present time.

Under these conditions the Workers Party had no alternative but its own revolutionary standard and make the fight alone.

Fitzpatrick had already gone back to the Communist Party. He had, however, one of the outstanding pioneers in the Labor Party movement of the United States...

However, the principle of the United Front and the conditions under which we can and will take part in it, hold the key to the matter.

We discussed the situation for many days and considered it from all angles. The labor party of the United Front of every single state and discussed them in detail.

We can understand how our decision to put Foster and Glavin in the field may have been made. It is no breach of faith with any honest elements in the labor movement.

There is another aspect to the question which it is necessary for us to speak about. Their letter seems to approach the question in all of its phases from the standpoint of the Farmer-Labor Party and from the standpoint of those Farmer-Labor leaders with whom we have been cooperating.

The Socialist Campaign

It is quite entertaining to see the enthusiasm with which the socialist party, all 53 of them, enters the campaign for LaFollette and Wheeler.

For instance, we have Eugene Debs, the "revolutionist," making his first contribution in an article eulogizing Mrs. Robert M. LaFollette.

Recognizing Soviet Russia

There is little doubt that during his vacation in Europe, the Secretary of State Hughes will attempt to dissuade the various countries from recognizing normal relations with the Union of Socialist Soviet Republics.

It is apparent that Mr. Hughes, the speaking in behalf of the most powerful financiers in the world, will meet with hardship in this venture. The fact of the matter is that, one by one, the capitalist governments are being driven to restoring relations with the Soviet Republic.

There is no foundation for such an opinion. The Communist Party always draws up its policy independently of masses, and all other groups...

Most movements in America, as it is well known in their own struggle, end at such decisive stage because they do not know that the Communist Party stands for the interests of the working class as a whole.

However, the principle of the United Front and the conditions under which we can and will take part in it, hold the key to the matter.
